# ABOUT EV HUB

The Atlas EV Hub gives stakeholders from across the electric vehicle industry quick access to key data and information on the market, policies and regulations, and developments central to the EV community. The site is intended to be a one-stop shop for businesses, policy professionals, and the advocacy community to learn more about what's going on in the EV market. The EV Hub is a product of the broad and diverse EV community. Contributors include private companies and utilities, all levels of government, and leading research and non-profit organizations.
